EACH INSPECTION CERTIFICATE (FROM THE THIRD ISSUED IN THE YEAR) WILL BE INVOICED AT THE COST OF 50€

The above mentioned amount includes all ICEA's inspection and certification services, but it doesn't include travelling expenses, board and lodging of technical staff and the cost of tests and analyses carried out at ICEA's discretion (according to the sampling plan defined every year)
The fee doesn't include the dispatch of certification documents, so the costs incurred will be invoiced separately to the operator.

Note: Just in case of for more than one certification scheme requested by the same company, it will be possible to recognize a discount for the inspection corresponding at least to the number of overlapping inspection days
