

Mode	STD	Training modules	STD	Training modules
Preparatory online self learning on https://training.icea.bio/	All	Introduction to textile industry - main definition	GRS, RCS	Main concerns related to the efficient use of materials; Introduction to the European legislation about Circular Economy (End of Waste, Producer Extended Responsibility) Main steps in recycling process (collection and sorting, concentration, treatment) Reclaimed materials, pre and post-consumer recycled materials.
	All	Introduction to textile industry - main processes and technologies		
	GOTS, OCS	Main environmental and social concerns related to the cultivation of fibre crops		

Mode	STD	Wednesday	STD	Thursday	STD	Friday
		09-giu 9:00-13:00 14:00-17:30		10-giu 9:00-13:00 14:00-17:30		11-giu 9:00-13:00 14:00-17:30
Online in presence modality	GOTS	Aim, scope and extension of the standard; regulation for production and certification of organic fibers; requirements for fibre material composition and label; GMO screening grading; Requirements for additional fibre materials.	OCS	Aim, scope and extension of the standard; Policy on GMO screening; Certification procedures	GOTS, GRS	General requirements for chemical inputs; specific requirements for using chemicals in manufacturing stages; Chemical Mgmt system
Online in presence modality	GOTS 6.0	Quality assurance system: qualification of suppliers of organic materials; qualification of sub-contractors; record keeping, identification and traceability; Input/output balance; Scope Certificates and Transaction Certificates	OCS, GRS, RCS, RDS, RAF (RWS, RMS, RAS)	Identification and traceability according to CCS 2.0:2016; Volume reconciliation (input/output balance)	GOTS, GRS	Environmental requirements and Mgmt system
					GOTS, GRS Compulsory self learning on https://training.icea.bio/	Social requirements and Mgmt system Interview to workers C.1 Social requirements and Mgmt system C.2 Audit of social issues - workers interviews

Mode	STD	Wednesday	STD	Thursday	STD	Friday
		16-giu 9:00-13:00 14:00-17:30		17-giu 9:00-13:00 14:00-17:30		18-giu 9:00-13:00 14:00-17:30
Online in presence modality	GRS	Aim, scope and extension of the standard; Reference documents; Reclaimed materials, pre and post-consumer recycled materials; Internal recycling; Requirements for composition. Quality assurance system: Qualification of suppliers of organic materials; Qualification of sub-contractors; Record keeping, identification and traceability; Input/output balance; Scope Certificates and Transaction Certificates	RDS	Aim, scope and extension of the standard; Certification procedures	ICEA Certification Scheme	Audit process: - audit plan - opening meeting; - conducting the audit; - taking samples; - elaboration of audit finding; - management of non conformities; - closing meeting Remote audit
Online in presence modality	RCS	Aim, scope and extension of the standard; Certification procedures	RAF (RWS, RMS, RAS) ICEA Certification Scheme	Aim, scope and extension of the standard; Certification procedures Main steps of the certification process.	GOTS, All TE	GOTS: Requirements for labelling; Logo approval TE-301-V1.0-Standards-Claims-Policy
